Baronet
Euthalia nais

Great Egg Fly
Hypolimnas bolina

Blue Tiger
Tirumala limniace

Common Albatross
Appias albino

Common Jezebel
Delias eucharis

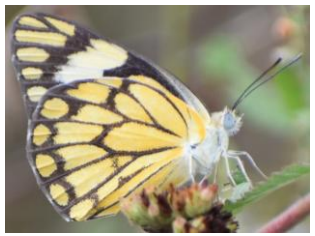

Psyche
Leptosia nina

Peacock Pansy
Junonia almanac

Yellow Pansy
Junonia hierta

Pioneer
Belenois aurota

Common Emigrant
Catopsilia Pomona

Common Pierrot
Castalius rosimon

Indian Cupid
Chilades parrhasius

Pocket guide to

Butterflies

of G.V.N.College

G. Venkataswamy Naidu College,
(Re-Accredited with A grade by NAAC)
Kovilpatti-628502.

Rice Swift
Borbo cinnara

Spotted Small Flat
Sarangesa purendra

Indian Skipper
Spialia galba

Indian Palm Bob
Suastus gremius

Butterflies:

Butterflies belong to one of the most common class of animals – Insects. *Lepidoptera*, being a large order of insects, includes butterflies along with moths.

India is home to about 1500 butterfly species of which 334 species of butterflies have been reported from South India. Not only do butterflies pollinate some plant species, their sheet presence also bring joy and have inspired humans in a big way. To bring more butterflies to our backyard, we can grow nectar plants.

This pocket guide covers 44 species of butterflies which are common to our College. This pocket guide gives easy identification for butterfly watching and for conservation.

This guide can be cited as *'Pocket guide to the Butterflies of G.V.N.College 2019'.*
